

N.C. Ecosystem Enhancement Program

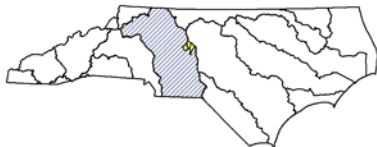

Restoring... Enhancing... Protecting Our State

UPPER UWHARRIE LOCAL WATERSHED PLAN

Fact Sheet

Location: River Basin: Cataloging Unit: 14-digit Hydrologic Units:	Yadkin 03040103 03040103050010, 03040103050020 and 03040103050040
Counties:	Davidson, Randolph
Watershed Area	130 square miles
Planning Contact:	Anjie Ackerman – Ecosystem Enhancement Program 919-715-1950 or anjie.ackerman@ncdenr.gov
Participants:	To be determined
Contractor Hired for Watershed Assessment	Buck Engineering

Yadkin River Basin

Project Overview

The Ecosystem Enhancement System (EEP) is initiating a new Local Watershed Plan within these watersheds. This area was chosen because of existing water quality and aquatic habitat degradation issues, as well as important habitat values which are present. Streams within this area have been designated as Outstanding Resource Waters, and the area also contains a significant aquatic heritage area of national significance. The upper portions of these watersheds are growing rapidly.

Project Schedule The Preliminary Findings Report for the watershed area was completed in August 2005. This project is "on hold" indefinitely.
